-What happened???

I’m Yezi. My name is Mingyu. In the original language, it is a gender neutral name, meaning rain or thunder. So it is different from the name Mingyu in Korean.

(In this video,) I’ll share some background information about myself.

Recently, many of you have been concerned about my mental and physical well-being and have reached out to express their concern.

I would like to thank everyone for that. At the same time, I want to make it clear that neither my mental nor my physical safety is guaranteed,

and that I am currently facing great threats with no one stepping in to intervene.

I NEED HELP. from the internet, as an asian international student in arts in florida

Basically, due to bullying and racial discrimination from local student—such as spreading false rumors and telling me to “GO BACK TO CHINA”—I was forced to undergo treatment at a psychiatric hospital for certain behaviors.

While I was on a hunger strike at the psychiatric hospital, his parents came to the school.
The school’s Title IX office designated me as the responsible party; if I ‘approached’ this person again, I would face action.

Later, I was repeatedly abused by this person through slander, psychological attacks, stalking, and other means. The school decided to punish me because I “sat too close to him.” The case was later closed.

The school subsequently conducted no investigation into him whatsoever, asked me no questions, and, when confronted by me, chose to evade the issue, leaving me to face endless danger alone. I am currently suffering from administrative paralysis.

Later, I lost some of my vision due to PTSD.

I have severe anxiety, severe depression, and medical records about it all the time.

I have already reported this to the police.

I will put a link under the video, instead of putting some information in the video, which will be censored.

…(STUDENT 1) mentioned that they can ask the "Federal…." to "send me back to …". I think the sentence should be: "We can ask the Federal Government to send (said them)(Mingyu) back to China." After the conversation, in the cabinet in my room……
I used a scissor…… I'm writing this letter to clarify that I feel hungry, thirsty, unsafe, humiliated, insecure, cold, dizzy, confused and I need help……

(No reply except N.C.O.)

Dear Mingyu,

The Title IX Coordinator received information, involving Ringling College of Art and Design ("Ringling College") students, (STUDENT 1) ("Complainant"), and Mingyu G/ ("Respondent"). As an individualized supportive measure that is "non-punitive and 'nondisciplinary being requested by the Complainant", a protective measure to minimize the potential for any future impact on the parties involved, the Title IX Coordinator is issuing a Mutual No Contact Order.

……However, all this happiness came to an abrupt halt on September 3, when (STUDENT 1) began making unfounded slanderous accusations and engaged in verbal provocation and threats with a group of people, and when (OFFICIAL 1) /, without conducting any investigation, listed my child as a RESPONDENT in

an NCO…… This official administrative document was issued while Mingyu was being abused and on a hunger strike at the psychiatric hospital……

……I met Mingyu in Chicago. Even before we met in person, she had already confided in me about the bullying and injustice she had experienced at her school, and she also told me that she had once attempted suicide. I have felt deeply worried about her experiences and her mental condition ever since. As a fellow international student, I can deeply understand the fear and anxiety that come with arriving in an unfamiliar environment……. During several nights in Chicago, she often cried and repeatedly spoke about the unfair treatment she had suffered, the exclusion and discrimination she experienced from her classmates, and her sui/// thoughts……

I thought this was over, even though (STUDENT 1) kept staring at me and his friends would laugh at me from a far place.
BUT……
When I received this message, I was cooking in the / kitchen. Upon seeing it, I rushed to turn off the stove and almost slid down the wall onto the floor……

"Mingyu and friends sat down at the same table as (STUDENT 1). Mingyu being in such close proximity that (STUDENT 1) felt the need to pack up his stuff and leave for his safety.. Given the serious nature of the incident which occurred on December 3, 2025, a STUDENT Conduct Hearing is scheduled for 2:00 pm on Tuesday, February 3, 2026 in the / Office in / Hall. Your alleged violations of the STUDENT 1ode of Conduct are as follows:

1. 8. Failure to comply: 1. Failure to comply with the directives of any college official(s) acting in the performance of their duties, and who has the authorization to issue such directives. ”

Hi Mingyu,
Thank you for your message. How scary! I hope you are ok.
Is anyone at the hospital with you? The school can send someone if you would like. It's standard procedure, so please ask if you would like some company……

As the school failed to respond within 36 hours, we already filed a report in California and sent all the 224Pages documentation by registered post to the Sarasota Police Department. If the police department concludes that this is the school's internal responsibility, the school will need to explain the significance of its current silence and its deliberate failure to respond to my NCO report.

Hello, (OFFICIAL 1). Although you haven't answered my 11 questions, I have a 12th one. Is the implementation of Title IX and the swiftness of decision-making at our school based on students' race?
